Time on Task:

2 hours, 34 minutes

Progress:

100%

Report Generated: Tuesday, November 4, 2025 at 3:54 PM

Section 1: Hands-On Demonstration

Part 1: Identify Forensic Evidence in an iOS Data Case

8. Make a screen capture showing the contents of the Properties pane.

Digital Forensics, Investigation, and Response, Fourth Edition - Lab 08

11. **Make a screen capture** showing the **contents of the Contacts grid**.

14. **Make a screen capture** showing the **contents of the Calendar grid**.

Conducting Forensic Investigations on Mobile Devices (4e)

Digital Forensics, Investigation, and Response, Fourth Edition - Lab 08

20. Make a screen capture showing the contents of the Messages grid.

24. Make a screen capture showing the contents of the Notes grid.

34. Make a screen capture showing at least two car pictures in the Thumbnail View.

44. Make a screen capture showing the Table of contents in the investigative report.

Part 2: Compare iOS Data Cases

10. Make a screen capture showing the difference in data case properties.

15. Make a screen capture showing the additional note in the newer data case.

Section 2: Applied Learning

Part 1: Identify Forensic Evidence in Android User Data

7. Make a screen capture showing the Device Information.

9. Make a screen capture showing the ICE Contacts.

12. Make a screen capture showing the Contact Email Accounts.

15. Make a screen capture showing the Installed Applications.

19. Make a screen capture showing the recovered contact information from the Android phone.

Part 2: Identify Forensic Evidence in Android Application Data

4. Make a screen capture showing the User Activity Timeline between 9:17:47 AM and 9:24:51 AM on 6/2/2021.

Conducting Forensic Investigations on Mobile Devices (4e)

Digital Forensics, Investigation, and Response, Fourth Edition - Lab 08

7. Make a screen capture showing the contents of the Own Whispers grid.

10. Make a screen capture showing the contents of the History grid.

17. Make a screen capture showing the contents of the list_item 1-5 table.

20. Make a screen capture showing the Keep Notes account owner.

Conducting Forensic Investigations on Mobile Devices (4e)

Digital Forensics, Investigation, and Response, Fourth Edition - Lab 08

23. Make a screen capture showing the Investigative Report's Table of Contents.

Section 3: Challenge and Analysis

Part 1: Research Report Writing for Digital Forensics

Prepare a brief summary of the appropriate structure and best practices for preparing a digital forensics report.

Structure of a Digital Forensics Report

Introduction
Provide a brief overview of the report's purpose and scope. Include the case number and relevant dates.

Case Background

Detail the context of the investigation, including the nature of the incident and the parties involved.

Forensic Acquisition and Examination Preparation

Describe the methods used for evidence collection and the tools employed during the examination.

Findings

Present the results of the forensic analysis clearly and concisely. Use visuals like charts or tables where appropriate to enhance understanding.

Conclusion

Summarize the key findings and their implications for the case. Offer recommendations for future actions or improvements in security.

Appendices

Include any additional information, such as logs, screenshots, or detailed technical data that supports the findings.

Best Practices for Report Writing
Clarity and Simplicity: Ensure that the report is understandable to both technical and non-technical audiences. Avoid jargon where possible.

Objectivity: Maintain an unbiased tone throughout the report. Present facts without personal opinions.

Detail Orientation: Provide enough detail to support your findings, but avoid overwhelming the reader with unnecessary information.

Documentation: Keep thorough records of all procedures and findings to ensure the report can be validated and referenced in the future.

Review and Revise: Before finalizing the report, review it for accuracy and clarity. Consider peer reviews to catch any potential errors.

Part 2: Draft a Forensic Report

Case Summary

In this case all the evidence leads to the accused being guilty as charged of stealing cars. While digging through the digital evidence. We have found images of cars that have been stolen. We also found notes on the cars that were stolen and also notes on the number plates that the cars were changed to. When looking at the messages history and the history of texts within the app called whisper, we can find evidence of a car theft ring that the accused has been a part of and therefore all the people in the ring should be questioned about their involvement in the stealing of cars and reselling them for a profit.

Findings and Analysis

We found multiple images of cars and texts that leads to the accused being guilty of stealing cars and selling them online. We also have some texts where there were talks about stealing cars in the windy city, being code for Chicago. There were also discussions about stealing specific cars on the app called whisper. There were also many other texts that might have been an intimation of a wider criminal syndicate as well.

Conclusion

All the evidence that was found digitally on the phone leads to the accused being guilty as charged on all accounts.
