Conclusion

The conclusion I have come to is that there were several searches about politicians, especially about Trump being banned from twitter and searches in relation to deletion of messages on the device. There were also searches on the phone related to the deletion of WhatsApp and secure messaging services. I have also found evidence of a drug deal that was to be made between eddie and someone by the name of E Johnson as can be seen below.

Therefore, Eddie was definitely a drug dealer and should definitely be convicted of the crime with the proper punishment given.
