Home Tools BG_warrant.pdf

1 disk image taken from seized dell laptop

Describe Collection method (include operating system, utility, commands, arguments, etc):

disk image generated using FTK imager from Windows 10 workstation

What application software/utility is required to view the file?:

FTK imager, E3, Autopsy, Encase, or comparable

Where is evidence initially stored?: Disk image is stored on BPD file server, source laptop stored in BPD police locker

How is evidence initially secured?: Windows BitLocker Encryption

Collector signature: [Signature] Date: April 30, 2021

Copy History:

Date	Copied By	Copy Method	Disposition of original and all copies

Transfer History:

Transferred from (print name, sign & date): Brendan O'Rourke

Transferred to (print name, sign & date): Mohammed Anwar, 9/1/2025

Where is evidence now stored?: vWorkstation

How is evidence now secured?: windows bitlocker encryption

Transferred from (print name, sign & date):

Part 2: Extract Evidence Files and Create Hash Codes with FTK Imager

Applying the Daubert Standard to Forensic Evidence (4e)

Digital Forensics, Investigation, and Response, Fourth Edition - Lab 01

34. Make a screen capture showing the contents of the 0002665_hash.csv file.

Digital Forensics, Investigation, and Response, Fourth Edition - Lab 01

38. **Make a screen capture** showing the **contents of the MyRussianMafiaBuddies_hash.csv file.**

Digital Forensics, Investigation, and Response, Fourth Edition - Lab 01

Digital Forensics, Investigation, and Response, Fourth Edition - Lab 01

39. **Make a screen capture** showing the **contents of the Nice guys_hash.csv file**.

Part 3: Verify Hash Codes with E3

Applying the Daubert Standard to Forensic Evidence (4e)

Digital Forensics, Investigation, and Response, Fourth Edition - Lab 01

14. Make a screen capture showing the MD5 and SHA1 values for the MyRussianMafiaBuddies.txt file.

16. Make a screen capture showing the MD5 and SHA1 values for the Nice Guys.png file.

17. Describe how the hash values produced by E3 for the incriminating files compare to those produced by FTK. Do they match?

Both hashes produced by FTK and E3 for the incriminating files match each other

Section 2: Applied Learning

Part 1: Extract Evidence Files and Create Hash Codes with FTK Imager

5. Make a screen capture showing the contents of the suspicious email file in the Display pane.

Applying the Daubert Standard to Forensic Evidence (4e)

Digital Forensics, Investigation, and Response, Fourth Edition - Lab 01

16. Make a screen capture showing the **two hash values** for the suspicious email file.

Part 2: Verify Hash Codes with Autopsy

11. Make a screen capture showing the MD5 field in the Result Viewer.

12. Describe how the hash value produced by Autopsy compares to the values produced by FTK Imager for the two .eml files.

They all match

Part 3: Verify Hash Codes with E3

7. Make a screen capture showing the MD5 value produced by E3.

8. Describe how the hash value produced by E3 compares to the values produced by FTK Imager for the two .eml files and the value produced by Autopsy.

All of them match each other

Section 3: Challenge and Analysis

Part 1: Verify Hash Codes on the Command Line

Make a screen capture showing the hash values for the Evidence_drive1.001 file.

```
Administrator: Command Prompt
Microsoft Windows [Version 10.0.17763.1935]
(c) 2018 Microsoft Corporation. All rights reserved.

C:\Users\Administrator>certutil -hashfile "C:\Daubert Standard Evidence\Image1\Evidence_drive1.001" MD5
MD5 hash of C:\Daubert Standard Evidence\Image1\Evidence_drive1.001:
5f5eea0ac358e2118ef95afc35f20b6e
CertUtil: -hashfile command completed successfully.

C:\Users\Administrator>certutil -hashfile "C:\Daubert Standard Evidence\Image1\Evidence_drive1.001" SHA1
SHA1 hash of C:\Daubert Standard Evidence\Image1\Evidence_drive1.001:
cccd6c27c5358e8b81cd8e819a036a1c07fd87b0
CertUtil: -hashfile command completed successfully.

C:\Users\Administrator>
```

Part 2: Locate Additional Evidence

Define the original file names and file paths for each of the three files.

1. xl/drawing/drawing1.xml/worksheets/_rels/sheet1.xml.relsPK2. Document Summary Information 3. No name
